

Are alcohol or other drugs hurting someone you care about?

Addiction is a brain disease that only gets worse without treatment.

It robs people of their health, their jobs and their families.

Treatment works! And it's available now, at no cost, to those who qualify.

Reach out now. Learn the signs of addiction, and how to help someone begin treatment.

**We are the faces of recovery.
Treatment gave us help, hope, and healing.**
